HOSE PROTECTION BEADS

Chemical, fuel and high pressure hoses are costly items. Win United carries a range of hose protection beads which can be easily installed on the outside of these hoses to provide wear protection for the outer cover. Larger/longer hoses can also become heavy, and these beads reduce friction, making the hoses easier to drag or pull from use to use.

CAMLOCK SAFETY BUMPS

These nifty items not only protect camlocks when dropped but they also feature a heavy duty handle to assist in dragging of hoses, needful especially in the waste industry. These plugs and caps also ensure no liquid is left if the hose leaks or spills during transit. Also ask about our food grade range.

FIRE FIGHTING HOSE KITS

We are specialists in Fire Fighting hose valves and fittings, and carry a complete range. These are available with coarse fire brigade thread and wire whipping to provide the most reliable option for handling critical and life threatening circumstances. Our range of Australian-built percolating and non-percolating hoses is rugged and suitable for the tough Australian environment.

FLOW METERS

Win United carries a complete range of Industrial Flow Meters, from 1/2" (12mm) Threaded BSP to 12" (300mm) Flanged Flow Meters. We also have Pulse Head Type Water Meters available upon request. Call us today to discuss your requirements.

PRODUCT REVIEWS

THREADED BRASS FITTINGS

We are proud to offer our comprehensive range of High Quality, Brass Threaded Fittings, suitable for all plumbing and industrial applications. With fast delivery and competitive prices we will ensure your every need is met. Available in sizes from 1/8" (3mm) to 4" (100mm) to meet all engineering requirements. Call us today and make us your key brass supplier!

- Our range includes • **Adaptors • Backing Nuts • Reducing Bush Fittings • Caps • Elbows • Thread Pieces • Nipples • Reducing Nipples • Plugs • Sockets • Tee's • Unions • Nut & Tails • Lump Ends • Hose Joiners**

THREADED GALVANISED FITTINGS

We stock High Quality, Galvanised Threaded Fittings in a complete range of thread configurations and sizes to ensure that your orders will be delivered in-full and on-time. Our comprehensive freight system allows for overnight delivery service for all major metro centres. If you require your order faster than this, our expert staff can arrange it for you.

- Our range includes • **Caps • Cross • Flanges • Elbows • Bends • Nipples • Reducing Nipples • Backing Nuts • Plugs • Reducing Bush Fittings • Sockets • Reducing Sockets • Tees • Threaded Pipe Pieces**

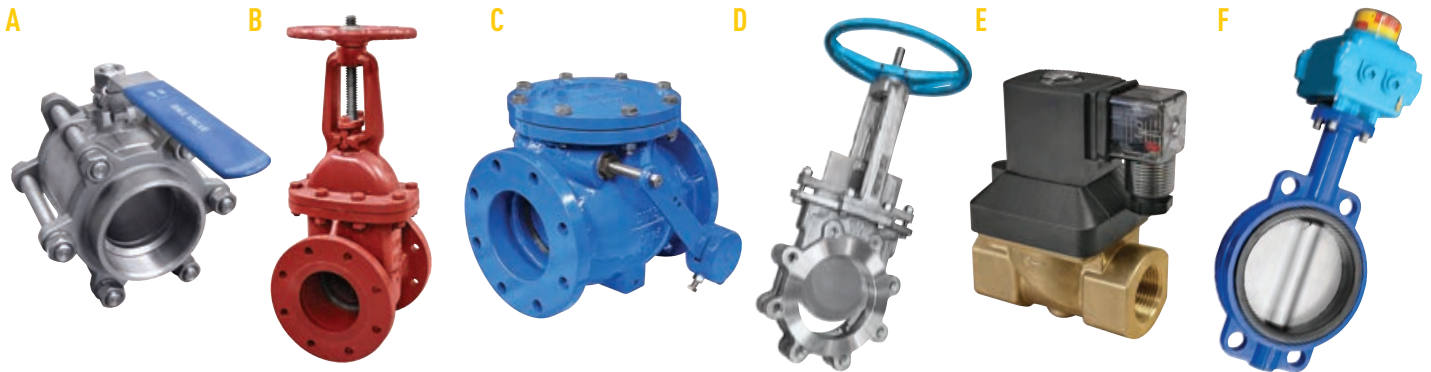

DON'T FORGET TO ASK ABOUT OUR COMPLETE RANGE OF HYDRAULIC HOSE & FITTINGS!

KIT'S SAFETY TIP

Minimum Bend Radius Recommendations

The bend radius (r) is the radius of the arc thru which a hose is bent. The minimum bend radius is the tightest arc in which a hose is bent without kinking or otherwise damaging the hose. As rule-of-thumb the bend radius is as follows:

Bending a hose to a tight radius imposes stresses on the structure of the hose, which may cause a reduction in the performance or in extreme cases cause permanent damage to the hose.

The minimum bend radius that a hose will withstand depends upon many factors, including the wall thickness, the presence of a wire helix, the type of reinforcing material and the loss of performance that can be tolerated.

Hose	Wire Reinforced	Non-Wire Reinforced
Up to 50mm I.D.	6 x O.D.	12 x O.D.
Over 50mm I.D.	8 x O.D.	12 x O.D.

WIN UNITED DEWATERING PUMPS

2" Flex Pump / Motor Kit

- Genuine Honda 5.5hp
- Huge 990lpm / 32m head
- Full Roll Frame and base cone
- Spring mounted to reduce movement
- 6 m Flex Cable

ONLY \$1487 +GST

2" (50mm) Ultraflow Drainage Pump – Auto Start

- Huge 220lpm / 11m head
- Stainless Steel Casing
- Triple oil seal
- 2" Outlet
- 11m cable
- Automatic Start
- 2 Year Warranty!
- Model: UADB400/1

ONLY \$465 +GST

2" (50mm) Ultraflow Drainage Pump – Manual Start

- Huge 220lpm / 11m head
- Stainless Steel Casing
- Triple oil seal
- 2" Outlet
- 11m cable
- Manual Start
- 2 Year Warranty!
- Model: UADB400/1

ONLY \$450 +GST

Puddle Sucker Pump

- Sucks as low as 3mm!
- Stainless Steel Casing
- Sucks Puddles dry in Seconds!
- 2" Outlet
- 11m cable
- High 140lpm / 10m Head

ONLY \$425 +GST
